Sattlement of the Company, now in course of preparation, is being framed in accordance with this

The very considerable increase in the number of Vessels employed in what may be termed local trade, or in voyages that either originate or terminate, at Hongkong, in addition to the great quantity of tonnage visiting the Port from all quarters of the World, afford ample scope for the remunerative operations of Dock Companies, in addition to those which are already in existence. Application has been made to Her Majesty's Government with reference to obtaining a site for the proposed Docks in the Colony, and the project has been favourably entertained, steps being in progress to facilitate this object, the necessary prelim nery investigations as to the suitable charactor of the proposed site having been conducted and satisfactorily reported upon, by Mr. S. B.

Liberal support has been promised to the undertaking which it is contemplated must necessarily prove a very remunerative one. Further applications for Shares can till farther notice he addressed to the Undersigned from whom forms of application and all particulars can EDWARD H. POLLARD,
